# 1. Scope and Objectives

Dear all friends,

The 6th Asian Meeting on biomedical Synchrotron radiation Imaging (AMSI2011) will be held from 11th to 14th August 2011 in Xining, Qinghai Province, China.

Synchrotron x-ray imaging methods provide the unique integration of multi-scale resolution (from ~30nm to 30 micron), high sensitive (phase contrast and fluorescence), deep penetrability and various imaging contrast mechanisms (electron density, element, chemical state et.al.). They can be used to investigate the hierarchical structures of biomedical objects (from organelle, cell, tissue, organ to body) nondestructively. It would be very interesting to exchange the new development and experience of synchrotron x-ray imaging methodology and its applications. Based on the previous 5 successful AMSI meetings, we hope to provide once again a platform to identify the common interests and the potential of collaboration research among medical doctors, biologists and SR experts from different Asia countries.

Qinghai, located in the north part of the Qinghai-Tibet Plateau, is a remote and beautiful place with many characteristic culture and magnificent nature heritages, such as the Kumbum Monastery, the Qinghai Lake, and so on. This meeting will offer a good opportunity to learn and enjoy the cultural and landscape of the northwest of China. We also can enjoy the cool air temperature of summer and many delicious local foods.

The organizers hope to teach everyone to sing the following famous folk song about Qinghai. It was born at the lakeside of Qinghai Lake.

在那遥远的地方/有位好姑娘/人们经过了她的帐房/都要回头留恋地张望;  
她那粉红的笑脸/好像红太阳/她那活泼动人的眼睛/好像晚上明媚的月亮;  
我愿抛弃了财产/跟她去放羊/每天看着她粉红的笑脸/和那美丽金边的衣裳;  
我愿做一只小羊/跟在她身旁/我愿她拿着细细的皮鞭/不断轻轻打在我身上。

See you soon in Xining!

Xiaoming, Jiang

## 4. Registration and Call for Abstract

### Registration

All participants are strongly suggested to notify the intention of attendance via email no later than July 15, 2011. Since August is the peak period of Qinghai tour, it is very difficult to find an accommodation temporary. The local organizing committee will reserve the rooms for participants in advance. It should be very grateful if you can note us your attendance as early as possible.

The email address of the secretary is: [lig@ihep.ac.cn](mailto:lig@ihep.ac.cn).

### Call for Abstracts

#### *Topics*

Research results, contributions and recent developments related to the field of Synchrotron Radiation Biomedical Imaging and its applications.

#### *Submission*

You should submit the abstract via email before Aug. 1, 2011. The email address of the secretary is [lig@ihep.ac.cn](mailto:lig@ihep.ac.cn).

### Accommodation

## 5. Useful Information

### Transportation

By shuttle bus: there are shuttle buses from airport to Xining city center, and then take taxi to the hotel. The fare is about 30RMB.

By taxi: the fare of taxi from airport to any place of Xining is 100RMB.

### Passport & Visa

If you are uncertain as to the requirements for entry visas to China, please contact the China Embassy or the Consulate nearest you. If you need invitation letter, please contact the secretary via [jiaqj@ihep.ac.cn](mailto:jiaqj@ihep.ac.cn).

### Weather

The average high air temperature of Xining in August is 23-25°C. It is comfortable. However, the variety is big in daytime and evening. The ultraviolet ray is strong since the altitude of Xining is more than 2000m.

### Electricity

In China standard voltage is 220 volts, electrical outlet is the international standard type, S TZ-1-AP1. It is American standard (STZ-1-AP2) in Japan and Germany standard (STZ-1-AP5) in Korea.
